GEN. ALBAN KILLED
IN FIGHT AT PANAMA.
Rebel Fleet Tries to Force a Landing in the Harbor—Sinking of Government Gunboat Lautaro.

WASHINGTON, Jan. 20.—(AP)—The details of fighting between the forces of the Colombian government and those of the insurgents in Panama Bay were received in official dispatches today. They consisted of a dispatch from General-Governor Guzman, and another from Capt. Meade, the commander of the cruiser Philadelphia, which is lying in Panama Bay. The State Department received the following from Consul-General Guzman: "Fighting in bay. Governor killed. Excitement great."

The Secretary of the Navy received the following from Capt. Meade: "The insurgent gunboat Badilla attacked the Lautaro yesterday morning at close quarters. Crew has deserted here. Is now on fire and sinking."

Up to 10 o'clock no additional advice had come either to the department, or to Dr. Silva, Colombia's representative at this capital. The officials of the State and Navy departments are watching the outcome of the contest with much interest. It is believed that further reports will be received by tomorrow morning.

At the Colombian Legation, great regret is expressed by the officials at the death of Gen. Alban, Governor of Panama. He had proved a very successful officer, and in the recent operations incident to the capture and surrender of Colon by the rebels, he had played a conspicuous part. He was about 50 years of age, and a man of brilliant attainments. Formerly, he had been Attorney-General of Colombia.

REBELS BOUGHT A LANDING.
BY THE NEW ASSOCIATED PRESS—A.M. COLON (Colombia) Jan. 20.—(Wire from Colon.) A naval battle, which began at 4 o'clock this morning, is in progress in the harbor of Panama. The revolutionary fleet consists of the steamers Padilla, Darien and Gaitan. They are trying to force a landing off Soacha.

The government ships are the Chilean line steamer Lautaro, the Pacific Steam Navigation Company's steamer Chiriqui and the Panama Canal Company's steamer Boyaca. The Lautaro was seized by Gen. Alban, and the other two have been chartered by the Colombian government.

As this dispatch is being sent, three shots have just passed over the Chiriqui, and she has answered with several shots. They fell close to the Padilla, which is seen to be retreating. The guns at Las Bovedas are also firing at the rebel ships.

REBEL FLEET DREW OFF.
Arrival of Gunboat Boyaca With Troops Ended the Conflict.

THE REVOLUTIONARY FLEET—P.M. PANAMA, Jan. 20.—(By Central American Cable.) The government gunboat Boyaca has just moored to the dock here. She brings troops from Chiriqui. She reports that the revolutionary steamers Padilla, Darien and Gaitan drew off when they became aware of her presence. The Darien is now reported to be in a sinking condition.

THE day it became known that the insurgents who attempted to capture Maricaobo on Saturday were adherents of Gen. Hernandez, who is called "El Mercho," and who is still kept in prison by President Castro. The revolutionists attacked the police post situated in the main street. The fight there ended in the defeat of the revolutionists. There were "several" men killed and wounded, according to the latest advice received, other reports making the loss quite heavy to the government side. The revolutionists concentrated at Paraguaná and near Veia de Coro, according to the reports which have reached Curacao, appear to have been defeated by the government troops.

The revolutionary steamer "Liberador," it is now said, is among the island and near here. No confirmation has been received of the report that the government forces were completely defeated by the revolutionists near Curacao.

CHANGES AT BOGOTA.
BY THE NEW ASSOCIATED PRESS—A.M. NEW YORK, Jan. 20.—Reports from Bogota to the Herald say that a new ministry has been formed there. Señor Joaquín F. Velez, Governor of Magdalena, has become Minister of State. Señor Francisco Fernandez, former Director of Police of Bogota, has succeeded Señor Concha as Minister of War, and Señor Jaime Concha, former Governor of Cauca, is Minister of Finance. Señor Abadía Mendes remains as Minister of Foreign Relations.

CONSUL PIERCE OF THE SOUTH AFRICAN REPUBLIC PLANNING A PETITION TO CONGRESS IN BOER FAVOR.
BY DIRECT WIRE TO THE TIMES. NEW YORK, Jan. 20.—(Exclusive Dispatch.) Charles D. Pierce of No. 12 Liberty street, Consul of the South African Republic, is planning a petition to Congress asking the country to take steps for mediation between the Boers and the United States. With a hope of ending the Boer war. For ten months, Pierce has had 10,000 people engaged in circulating petitions throughout the country. The petitions have secured 250,000 signatures, and Webster Davis of Omaha is expected here today with a large petition.

Pierce hopes to obtain 2,000,000 signatures. He proposes to divide them up according to the section of the country they came from, and send to each member of Congress a petition signed by the people of his own district.

ADHERENTS OF HERNANDEZ.
WILLEMSTAD, Jan. 20.—Later in the day it became known that the insurgents who attempted to capture Maricaobo on Saturday were adherents of Gen. Hernandez, who is called "El Mercho," and who is still kept in prison by President Castro. The revolutionists attacked the police post situated in the main street. The fight there ended in the defeat of the revolutionists. CONGRESS HAS PICK.
Canal Routes are in Its Hands.

President's Message Has Nothing to Suggest.
Panama Offer Favored by the Commissioners.

Col. Metcalf Calls on Executive. Report Ordered on the Philippine Tariff.

BY THE NEW ASSOCIATED PRESS—P.M. WASHINGTON, Jan. 20.—The President's message to Congress, with a message, simply of transmittal, the supplemental report of the Isthmian Canal Commission, in which it is unanimously recommended that the offer of the new Panama Canal Company to sell all of its rights, property and unfinished work to the United States for \$40,000,000 be accepted. The Senate ordered the report printed in the Congressional Record and also as a document. After quoting the correspondence which passed between the commission and the officers of the Panama Canal Company in Paris, the report says:

"The totality, without exception, of its property and rights on the isthmus (mentioned in the cablegram of January 9) includes the following classes of property:

- (1) Lands not built on. There are fifty-six parcels of land to which the title rests in the canal company, amounting to about thirty thousand acres, with the lands belonging to the railroad company, cover nearly all of the ground required for the actual construction of the canal.

- (2) Buildings. There are scheduled buildings, divided among the various departments, for offices, quarters, storehouses, and other purposes. Among them are two large permanent buildings in Panama, one used as the headquarters residence and the other as the general office; large general hospitals at Colon and Panama, and several important buildings at Colon. These buildings are furnished.

- (3) Plant. There is an immense amount of machinery, consisting of floating plant (tugs, launches, dredges, etc.).
- (4) Work done. The excavation already accomplished upon the main canal, which will be of value in the plan recommended by the commission, was carefully computed and was found to be \$4,350,000. A temporary diversion of the Panama Railroad has been made at the Culebra cut, which also must be considered.

"Using the same classification for materials and the same unit price in the other estimates, with the 20 per cent. added for contingencies, the value of the work done is found to be: Value excavation, \$4,350,000; Charges, diversion, \$1,111,000; total, \$5,461,000. The bonds bear 4 1/2 per cent. interest. There are outstanding also \$95,000 6 per cent. sinking fund subsidy bonds, but this liability is an amortization of the annual payment of \$25,000 due to the Colombian government, and its cessation for the period ending November 1, 1901. The railroad company owes \$98,915 to the Panama Canal Company, mainly on account of the reconstruction of the pier at La Boca.

ninety days. The work of constructing the canal will largely increase the business of the railroad, and enable it to pay off its liabilities in a very few years.

"(5) Maps, drawings and records. The value of the maps, drawings and records in Paris, on the isthmus or elsewhere, all of which are to be transferred to the United States, is placed at \$2,000,000. Summing up the foregoing items, the total value of the property is found to be:

"Excavation done, \$7,674,000; Panama Railroad stock, at par, \$4,564,000; maps, drawings and records, \$2,000,000; total, \$14,238,000. To which add 10 per cent. to cover commissions, \$1,423,800; total, \$15,661,800.

"The last item is intended to cover any building machinery, railroad stations, additional excavation to date of purchase, and other assets, which may be of value to the United States, and have not been included in the other items.

"The estimate of construction of the Nicaragua Canal is \$45,000,000 more than the cost of completing the Panama Canal.

"The estimated cost of maintaining and operation is \$1,300,000 greater at Nicaragua than at Panama. The Panama route would be 134 1/2 miles shorter than the Nicaragua route. From sea to sea, with fewer locks and less curvature, both in degree and miles.

"The estimated time for a deep-draught vessel to pass through the Panama route by ordinary steamers, delays for winds, currents or darkness. If the passage were made without interruption, about a day could be saved by the Nicaragua route over the Panama route by ordinary steamers. The time advantage of the Nicaragua route would be less in the case of the fast, high-powered steamers, the use of which is increasing. Between Atlantic ports and the North Pacific ports, the time advantage of the Nicaragua route would be about one day. The trade of the western coast of South America is a very important one, which has hitherto been in European hands.

"The offer received from the Nicaragua Canal Company to convey all its property, including all its interest in the Panama Railroad to the United States will make a valuable contribution to the two canals as follows: Nicaragua, for would give title to all the land now owned by the Panama Canal Company, which would be a valuable asset to the United States. The report is signed by the entire commission. The State Department will now proceed to arrange a protocol with Mr. Silva, chargé d'affaires of Colombia, to approve the transfer of the franchise of the Panama Canal, and to make any desirable extensions of time allowance for the completion of the canal and the life of the lease.

This image shows the fore-edge of a very thick, antique book. The pages are numerous, tightly packed, and have a dark, mottled appearance, suggesting significant age and wear. The binding material, likely leather or a similar durable fabric, is visible along the right edge of the book block. The overall texture is rough and uneven, with some lighter areas where the paper might be slightly worn or discolored. The lighting is dramatic, highlighting the edges of the pages and the binding against a dark background.

Bold Attempt To Deceive and Defraud.

There are few worthy successes not tagged by a procession of fakirs. This is especially true of the medical profession. There are shamless "quacks" in Los Angeles who not only advertise under fictitious names and false faces, but who pilfer the advertising and lay claims to the methods of reliable specialists, hoping thereby to defraud the public into paying them good round fees for a service such as they are unable to render.

The advertisement below, telling of my original and effective methods of treating men's diseases, which first appeared in the Los Angeles Times of January 16, 1902, was appropriated bodily by a parasite of the profession who styles himself a specialist, but whose real specialty is everything that holds out a prospect of a fee, no matter whether the victim be man, woman or child, and was printed under his fictitious name and likeness on page 2, part 2 of the Los Angeles Herald of Sunday, January 19th. Accompanying this advertisement appeared a paragraph containing atrocious prevarications that all who have given attention to the advertising columns of the local papers will recognize as untrue.

This being a second offense, my advertisement of January 16, having been appropriated in this manner, I feel that justice to the public and to myself demands this explanation of facts.
